Dr. Fernandez is Director of the Laboratory of Advanced Sonography at Instituto Medico La Floresta in Caracas, Venezuela and Professor of Physics and Clinical Applications of Doppler Ultrasound at SonoImagen-JUREI, which is affiliated to Jefferson Ultrasound Research and Education Institute, Thomas Jefferson University, Philadelphia, USA. He completed the Post Graduated Internship in Cardiology and Internal Medicine in 1982 and MSc in Internal Medicine in 1986 at Universidad Central de Venezuela.

Dr. Fernandez's primary areas of ultrasound experience are Nephro-Urology and Neurovascular. He became one of pioneers of the 3-D sonography in Latin America (according to the Smithsonian Institute, USA, on History of Medical Ultrasound, CD Edition, 2003) and has been working with 3DUS since 1997, with special dedication to non-Ob/Gyn applications, focused on Abdomen, Small Parts and Vascular.

Dr. Fernandez is affiliated to several scientific societies. He has been the recipient of important awards and recognitions such as Honorary Fellow of the American Institute of Ultrasound in Medicine and Honorary Member from the Societies of Ultrasound of Chile, Dominican Republic, Ecuador, and Peru. He received the Medal of the Latin American Federation of Societies of Ultrasound, FLAUS.

Dr. Fernandez has been very active in WFUMB, World Federation for Ultrasound in Medicine and Biology activities since 2003. He has served in many positions on the Board of WFUMB, such Vice President 2 and 1. He was President of the World Congress WFUMB 2013, Sao Paulo, Brazil. Currently, he is WFUMB Latin America Regional Director of Education.

In addition, Dr. Fernandez is Chairman of the Latin American Certification Program of APCA/Inteleos.

Dr. Fernandez is a Keynote Speaker with more than 380 lectures and facilitations of numerous meetings around the World, invited by all WFUMB affiliated Federations and Ultrasound Societies of USA, Europe, Asia, Africa, Australia and Latin America.
